

Tubeformer TF 1401 Ultra

The TF 1401 Ultra Tubeformer was specially designed for the fully automatic production of seamed spiral tubes. The tube matches with the standards of DIN 24145, SMACNA, AFNOR, BS or EUROVENT, regarding accuracy, air tightness and admissible pressures.

- Single or double corrugating unit
- Heavy duty forming heads for the tube production
- Flying slit for cut free of burrs
- SIEMENS® PLC control with touch-screen and pushbuttons
- Ecological GLL lubrication system

Technische Daten

Diameter	80 mm - 1.400 mm
Material	0,4 mm - 1,0 mm galvanized steel, others on request
Strip width	137 mm
Coil	1.000 kg per coil, A.D. 1.200 mm, I.D. 480 up to 530 mm
Run-off table	4.000 mm
Power supply	3 x 400 V; 50 Hz; 7,5 kW
Pneumatik	6,5 bar
Weight	2.400 kg
